📍 Ali Town Lahore

With a passion for coding and a solid understanding of programming languages, I am eager to gain practical experience and grow as a software developer. Seeking a challenging role in software development to kickstart my career and make a meaningful impact in the industry.

Education

Degree	Marks / CGPA	Year
MIT	3.1 / 4.00	2020 – 2022
BSc cs	514 / 800	2017 – 2019

Experience

DotNet Developer

- I have experience of 6 months as a junior dotnet developer.
- During my experience as an ASP.NET MVC developer, I gained valuable experience in developing dynamic web applications using C#, HTML, CSS, JQuery and JavaScript.
- I was responsible for developing and maintaining the backend of web applications using ADO.NET and SQL Server database, ensuring data integrity, and optimizing database performance.
- My experience involved creating SQL queries, stored procedures and triggers to extract and manipulate data.
- I worked collaboratively with a team of developers to deliver high-quality code on time, and I gained experience in using version control tools such as Git to manage code changes.
- Completed Tasks assigned by Team Lead.
- I used Jquery validation for client-side scripting.
- During my time as an ASP.NET MVC developer, I also gained experience in debugging, troubleshooting, and resolving technical issues, ensuring that the applications were error-free and met the requirements of the end users.
- I was responsible for the deployment of the latest Application on the server.

QA Test Engineer

- Conducted thorough testing of software applications to identify defects and ensure optimal performance.
- Executed manual test cases and documented results to identify software defects and ensure compliance with project requirements.
- Developed and maintained test documentation, including test cases, test scripts, and test plans.

- Participated in code reviews and provided feedback to developers to improve overall software quality.

Web Designing

- I have hands-on experience and knowledge in developing responsive, dynamic and user-friendly websites using HTML, CSS, and JavaScript.
- using CSS frameworks such as Bootstrap to develop responsive websites that work seamlessly on desktop and mobile devices.
- During my experience, I have gained a solid understanding of JavaScript and jQuery, and I have used them to add interactivity and dynamic functionality to websites.

Programming Skills

- **Languages:** C# , C++ , Java, JQuery, Html, CSS
- **Framework:** Mvc, Asp.Net, Bootstrap.
- **Tools and Technologies:** Visual Studio , Visual Studio Code, MS Sql Server, GitHub, Jira.

Other Skills

- E-commerce
- Digital Marketing
- Facebook ads posting, youtube ads posting.
- Amazon VA
- WordPress
