- Years of experience in SQL Server with excellent practical exposure of T-SQL, complex view, Procedures, Functions, Triggers, Cursors and query optimization.
- Sound knowledge of Object Oriented analysis.
- Provide assistance to testers and support personnel as needed to determine system problems.

TECHNICAL SKILLS

- C#
- ASP.NET MVC
- ASP.NET Web APIs
- ASP.NET Web Services
- Micro ORM (Dapper)
- Entity Framework
- ADO.NET
- SQL Server 2014
- Rabbit MQ
- SQL Database
- SQLite Db
- HTML/HTML 5
- CSS
- Bootstrap
- JavaScript
- JQuery/AJAX
- Typescript
- Angular 7x

Integrations:

- Google Map APIs
- Firebase Cloud Messaging (FCM)
- Social Media APIs (LinkedIn, Facebook, Google Plus etc.
- Job Sync APIs integration with other job boards like Indeed.com

Tools:

- MS Visual Studio
- MS Visual Studio Code
- MS SQL Management Studio
- Fiddler
- Post Man

Source Control:

- TFS
- GitHub
- Sub Version

EXPERIENCES

Nov 2017 – Present

APPLY4U

Sr. Software Engineer (Lead)

Dec 2015 – Nov 2017

Gourmet Foods and Beverages

Sr. Software Engineer

Jun 2015 – Nov 2015

Soft Soul Solutions Providers Bahawalpur

Software Engineer

PROJECTS

APPLY4U

Apply4U is a UK based Recruitment and Job website. On this Site User can register their selves. They can search and apply on jobs, they can set job alerts. They also have an interactive dashboard to see updated jobs and updates about their applied jobs. On the other hand Clients can search CVs to fill their vacancies. They can post their jobs to our site and have a dashboard to see how many candidates they have till the date etc.

Responsibilities:

- Develop UI using Angular 7x.
- Write APIs using ASP.Net Web API framework
- Write Store procedures
- Manage other team members and review their code and help them out if they got stuck anywhere.

BMU

Worked on Business Management Unit for Gourmet Pakistan. This was a system that covers Gourmet Primary Sale, Secondary Sale, HR, Finance, Production, P2P and Supply Chain.

Responsibilities:

- Meeting with business analyst and propose technical solutions
- Develop APIs using ASP.net Web API framework
- Write Store procedures
- Build Web interface using HTML, CSS and JQuery.

Attendance System (BMU)

Attendance system had developed in C# Windows Forms. It was also the part of BMU. Employees mark their attendance with their Thumbs.

Responsibilities:

- Meeting with business analyst to understand the requirement.
- Write APIs using ASP.Net Web API framework.
- Design Database and write store procedures
- Develop UI using custom and built in controls

POS (BMU)

Point of Sale for Gourmet Food Pakistan. A cross platform system in which client side developed using Android and Windows Forms and server side developed using ASP.Net. It had been developed to manage the Sale at gourmet Outlets.

Responsibilities:

- Meeting with Business analyst to gather requirements and then propose solutions □ UI development using custom windows form controls.
- Write APIs using ASP.net Web API framework
- Write store procedures (MSSQL)

GSSM (BMU)

Developed to manage Gourmet Secondary Sale. This was an integrated system in which server side developed using ASP.Net and client side using Android. It also have a web based UI.

Responsibilities:

- Develop Web based UI using HTML, CSS, JQuery and Microsoft Razor Engine.
- Write APIs using ASP.net Web API framework
- Write Store procedures (MSSQL)

Employee Management System

This system was developed in C# window forms. This was my final year project. It was developed for a small organization employee management.
